(HY 2023: £118m)

Utmost Group uses Alternative Performance Measures ("APMs") as key financial indicators to assess the underlying performance of the Group. Management considers the APMs used to provide an accurate and helpful reflection of business performance. For further information, please see pages 62 and 63.

This document contains, and Utmost Group may make other statements (verbal or otherwise) containing, forward-looking statements, other information relating to future financial conditions or the performance, results and/or strategy of the Utmost Group. For further information, please see page 67.

CHIEF EXECUTIVE OFFICER'S REVIEW

"

Utmost was founded with the core attributes of ambition, dynamism and entrepreneurialism, and it is galvanising to see that these remain embedded and championed across the Group. We have never been shy about our bold strategic objectives and we remain committed to building an enduring business for all our stakeholders.

PAUL THOMPSON
GROUP CHIEF
EXECUTIVE OFFICER

CHIEF EXECUTIVE OFFICER'S REVIEW (CONTINUED)

Utmost was founded with the core attributes of ambition, dynamism and entrepreneurialism, and it is galvanising to see that these remain embedded and championed across the Group. We have never been shy about our bold strategic objectives and we remain committed to building an enduring business for all our stakeholders.

It is a testament to our leaders and employees across the Group that we have been able to take the courageous strides that have enabled us to excel in our chosen markets and establish our leading position. In ongoing challenging market conditions, our half year results are a demonstration of this.

BUILDING AN ENDURING BUSINESS

Our singular focus over the past few years has been on establishing Utmost as a leading provider of insurance and savings solutions. We have delivered enhancements across our client propositions and engagement, as well as made investments in our operational infrastructure to ensure that our business has an efficient, scalable operating platform. By executing on this, we have built the strong foundations which have enabled us to be a trusted partner to our clients for the long-term.

We have complemented these enhancements and efficiencies through the pursuit of a successful acquisition and integration strategy, most recently with Quilter International. These established foundations and strong track record provide our teams with the assurance and conviction to continue to scale Utmost and enhance our position in the wealth market. Our recently announced acquisition of Lombard International Assurance, subject to regulatory and other approvals, is further evidence of our commitment to this ambition.

Lombard International is a company that we have competed with and respected for many years. The acquisition will fortify our European position, strengthen our product offering and deepen our engagement across client segments. We are currently working across our various stakeholder groups to ensure a successful integration of Lombard International's operations and anticipate a completion by the end of the year.

In June, we were pleased to announce that Fitch Ratings upgraded the Group's Insurer Financial Strength ("IFS") and Issuer Default Rating ("IDR"). The rating increases, from 'A' to 'A+' and from 'A-' to 'A' respectively, reflect the Group's successes in both the delivery and execution of our strategy over recent years and is one of two upgrades since 2022. This latest rating upgrade is a validation of Utmost Group's strengths, particularly as Fitch referenced our established record of integrating acquired businesses, improved operating performance and scale, and our strong capitalisation and leverage.

I am encouraged that our ambition, and the attributes we have spent time cultivating in our pursuit of building an enduring business, are valued by all our stakeholders. I remain confident that this clarity of focus will hold us in good stead as we navigate the future.

RESILIENT PERFORMANCE

The start of 2024 has seen a continued easing of the macroeconomic headwinds that have built up over the past few years. This has enabled interest rates to start trending downwards and equity markets to remain resilient. These positive signs have however been dampened as political uncertainty and global conflict remain a pervasive threat that has curtailed a more bullish outlook.

The favourable equity and bond market conditions have supported an AUA growth of 3% from FY 2023. Net flows however have continued to be dampened by the uncertain outlook and "wait and see" mindset of individuals as economies try to move beyond the challenging conditions of the preceding few years.

EMPOWERING OUR PEOPLE

Our people are the foundation of our success, and we are committed to providing a workplace where they thrive.

A key part of this is providing the necessary tools and resources to support their development and long-term success. In 2024, we launched a pilot mentoring scheme to employees across the Utmost Group. The pilot, which targeted high-potential mentors and mentees, will help to foster a collaborative work environment and provide a forum for skill development outside of the immediate team. It will in turn help us to establish a strong pipeline of future leadership talent and reinforces our commitment to internal mobility opportunities.

Internal mobility is a key focus for our HR teams. In creating a workplace where our employees thrive, we want to be an employer for the long-term building a stable and supportive environment which encourages growth and development.

CHIEF EXECUTIVE OFFICER'S REVIEW (CONTINUED)

In April 2024, I was delighted to announce Karl Moore and Henry O'Sullivan as the new CEOs of Utmost International Isle of Man and Utmost International Ireland respectively and welcome them to their new leadership roles. Karl and Henry have been a core part of the Utmost Group leadership for a number of years and bring extensive leadership experience and knowledge of Utmost. I look forward to supporting them as they lead their respective

In May, we hosted our first Focus Month of the year with the spotlight on Wellbeing. The primary focus of these months is to raise awareness of the resources available to employees. Events held across the Group included sessions on building resiliency, beginners' meditation and mental health awareness.

SUSTAINABILITY AND OUR COMMUNITIES

At Utmost, we are dedicated to making a positive difference, building a brighter future for our clients and better serving all stakeholders. This means we have a responsibility to consider the environmental, social and economic impacts of the actions we take on our stakeholders – both present and future. Our approach to sustainability reflects this. In early 2024, we were an early adopter of the Isle of Man's new green energy tariff. With the Isle of Man the largest contributor to our operational emissions, the adoption of this tariff will have a significant impact on our overall emissions. In addition, we will continue to explore new means to reduce our operational impact.

We are committed to ensuring that our local communities thrive and prosper. Our local offices have forged longstanding ties through partnerships with schools and charities to deliver meaningful impact. Our colleagues in Ireland participated in the Business in the Community World of Work programme for the sixth consecutive year. The weeklong programme, which connects local businesses and secondary schools, addresses barriers of inequality by educating young disadvantaged students about the professional work environment.

Our volunteering efforts continued across the Group with locally led initiatives including Clean Coasts, which focused on dune restoration in Ireland, and the revitalisation of Britain's rainforests in the Isle of Man. These efforts are commendable and help to further support the Group's sustainability strategy, as well as give back to our local communities.

OPERATIONAL EFFICIENCY

In early 2024, we consolidated our International Operations teams into a single, geography-agnostic team. By streamlining our teams by function rather than geography, it will simplify and align standards and processes and foster a more cohesive and collaborative work environment. This project will maximise the diverse talents we have across the organisation and simplify the journey to consolidating our technology stack. This should have significant impacts for both our employees and for our clients, with our employees able to serve our clients more efficiently and effectively.

Our clients are at the core of Utmost, and we are committed to ensuring that we respond to their needs. In light of this, we were thrilled when our UK team won the Best Offshore Product at the 2024 Professional Paraplanner Awards for the second year running. This award is voted for by paraplanners - our intermediaries - and it is pleasing to see their ongoing trust in Utmost and our products.

The needs of clients are however also evolving. Our Head of Customer and Partner Excellence is tasked with ensuring that we understand and respond appropriately. This newly created role underscores our commitment to improving customer service and will work closely with all parts of the business to ensure that good customer outcomes are reflected throughout all aspects of the organisation.

FOCUS ON THE FUTURE

Utmost Group has strong growth ambitions. The proposed acquisition of Lombard International strengthens the Group's position in key markets throughout Europe. It brings together two large-scale businesses with closely aligned operating models and a shared commitment to serving our clients' long-term financial needs. I firmly believe that this acquisition marks an exciting milestone for the Group confirming our position as a leading global provider of international life assurance and delivering benefits for all our stakeholders.

The strategic intent demonstrated in our International business is matched in our UK business, Utmost Life and Pensions ("ULP"). ULP have progressed on their work to enter the attractive Bulk Purchase Annuity ("BPA") sector, which will provide us with a more diversified organic growth profile. We have made significant progress since announcing our intention to enter the market, which includes the hiring of a Head of BPA Business Development and the commencement of shadow pricing. We remain on track to enter the market in late 2024.

CHIEF EXECUTIVE OFFICER'S REVIEW (CONTINUED)

OUTLOOK

Looking ahead to the next six months, we have an exciting strategic pipeline which will progress the Group's growth trajectory, supported by our investments in our operational capabilities. I look forward with enthusiasm to Lombard International Assurance joining the Group and the scale that the acquisition will afford us to better serve our customers and strengthen our position in the market.

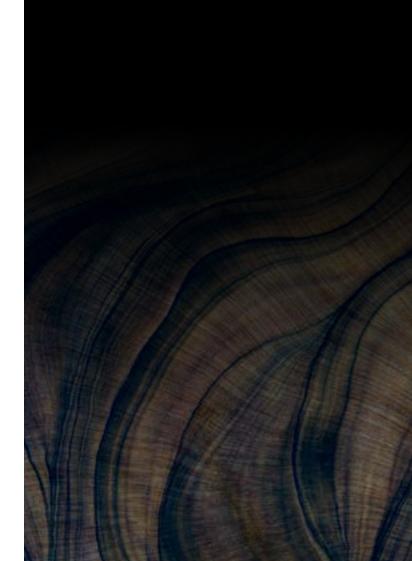

Our employees, who are the bedrock of our success, have been instrumental in reaching this point and I am certain that their continued dedication and entrepreneurial mindset will serve us well as we forge this new path.

Our organisation has never been in a stronger position and as I look ahead, with both pride and dedication, I am confident that Utmost's journey will continue to be successful for all involved. "

Our organisation has never been in a stronger position and as I look ahead, with both pride and dedication, I am confident that Utmost's journey will continue to be successful for all involved.

PAUL THOMPSON

GROUP CHIEF EXECUTIVE OFFICER

It is a testament to our leaders and employees across the Group that we have been able to take the courageous strides that have enabled us to excel in our chosen markets and establish our leading position.

> PAUL THOMPSON GROUP CHIEF **EXECUTIVE OFFICER**

KEY PERFORMANCE INDICATORS

OUR STRATEGIC GOALS

PROVIDING GOOD CLIENT OUTCOMES

- Working in partnership with our intermediaries to address client needs.
- Extending our proposition offering to provide well designed and efficient solutions.
- > Delivering high-quality, consistent, and reliable client service.

DELIVERING GROWTH

- Addressing demand drivers and operating in growth segments.
- Utilise our competitive advantages to attract and retain customers.
- Pursue inorganic growth opportunities, upholding a strict value accretive deal criteria.

OPERATING OFFICIENTLY

- Integration and optimisation of acquired businesses.
- Streamlining operational processes and systems.
- Invest in technology to enhance digital capabilities.

CREATING AN ENDURING BUSINESS

- Maintaining financial and operational resilience.
- Create a rewarding environment for our people to maximise their potential.
- Contribute to a lasting positive impact on the environment and broader community.

ASSETS UNDER ADMINISTRATION

AUA is a measure of the assets held by Utmost Group on behalf of its policyholders.

COMMENTARY

AUA increased in the period due to positive market movements offset by net outflows from gross inflows of £1.5bn and outflows of £(2.2)bn.

£64.7bn

FY 2023 £62.8bn

£64.7bn

VALUE OF NEW BUSINESS

VNB is a measure of the economic value of the profits expected to emerge from new business. It is calculated as the present value of future income arising from new business written in the year, less costs associated with writing the business, calculated on a Solvency II basis.

COMMENTARY

The increase in VNB reflects the improvement in VNB margin (defined as VNB divided by APE) from 13.6% in HY23 to 15.9% in FY23 and 17.7% in HY24, offset in part by the reduction in the volume of new business written.

HY 2023 £21m

ANNUAL PREMIUM EQUIVALENT

APE is a measure of sales calculated as the value of regular premiums plus 10% of any new single premiums written in the year.

COMMENTARY

Sales in the first half of the year have been subdued due to market uncertainty and volatility. Our Sales team have worked closely with their network of advisers and private banks to position us strongly to respond once confidence has been restored.

£140m

HY 2023 £154m

 $£140\mathrm{m}$

IFRS OPERATING PROFIT

Measures the profit emerging from the key operations of the business. It is a measure of IFRS earnings before interest, taxation, depreciation and amortisation ("EBITDA"). Operating Profit excludes any non-recurring item. A reconciliation of operating profit to IFRS profit before interest and tax is provided in the APMs section of this interim report.

COMMENTARY

The decrease in Operating Profit compared to HY23 is driven by foreign exchange gains that arose on an IFRS basis in H1 2023 that have not reoccurred in H1 2024 offset in part by lower expenses and higher fee income.

£104m

HY 2023 £118m

KEY PERFORMANCE INDICATORS (CONTINUED)

SOLVENCY II ECONOMIC VALUE

The Group view of the aggregate value of the business. It is calculated by adding the Solvency II Economic Value ("SII EV") of its insurance companies and the IFRS net asset value ("NAV") of its non-insurance companies.

COMMENTARY

SII EV increased in the period driven by the value of new business written, operational improvements and positive market movements.

£1,768m FY 2023 £1,686m HY 2024 £1,768m

CLIENT RETENTION

A measure of the clients who held an Utmost policy at the start of the year, and still held that policy at the end of the year.

COMMENTARY

High retention rates are a reflection of good client servicing and the delivery of appropriate solutions. Utmost Wealth Solutions ("UWS") high retention rates are driven by a strong proposition and good client service as well as the inherent product features, where some benefits may be lost or tax payments crystallised upon early surrender.

/		
	HY 2024	FY 2023
UWS	92.0%	91.8%
ULP	92.2%	92.6%
UCS	85.7%	85.5%

SOLVENCY COVERAGE RATIO

Calculated as Group Own Funds as a percentage of Group Solvency Capital Requirement ("SCR") (on a standard formula basis).

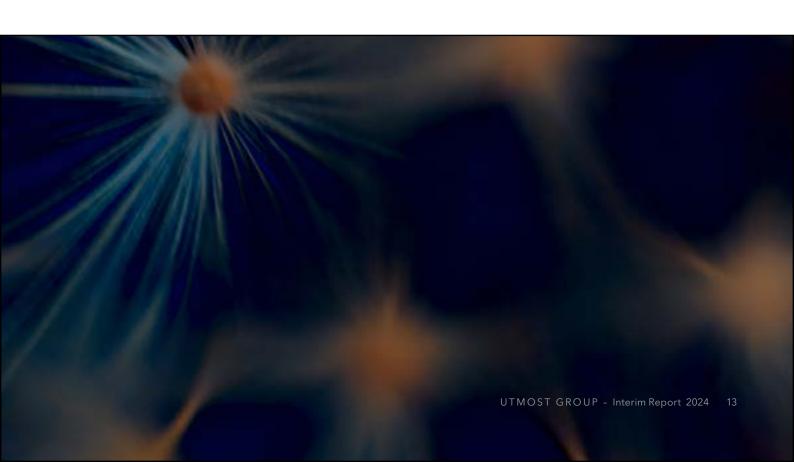

COMMENTARY

The mix of our fee base, between fixed and Annual Management Charge ("AMC")-based charges, and the equity symmetric adjustment contributed to the stability in the Solvency Coverage Ratio in 2024.

209%

FY 2023 208% HY 2024 209%

CHIEF FINANCIAL OFFICER'S REVIEW

"

In the first half of 2024, the Utmost Group delivered a resilient performance in an environment in which stronger investment markets have been overshadowed by political uncertainty and global conflicts.

The overall financial performance of our businesses remains resilient, and we go into the Lombard International acquisition from a position of strength.

IAN MAIDENS GROUP CHIEF FINANCIAL OFFICER

Utmost Group delivered resilient results for the first half of 2024, in a period in which the performance of equity and bond markets improved compared to recent years as rates of inflation headed back down towards target levels in western economies.

Notwithstanding the improved investment markets, political uncertainty and global conflicts have contributed to a continuing uncertain overall outlook and have acted to dampen our net flows in the first half of the year.

The financial performance of the Group is assessed using a variety of financial measures including our KPIs (see pages 12 and 13, each of which is discussed in detail below. These KPIs are considered APMs and are reconciled back to IFRS information on pages 62 and 63).

ASSETS UNDER ADMINISTRATION

Utmost Group's AUA was £64.7bn at 30 June 2024, an increase of 3.0% from the YE 2023 AUA of £62.8bn. This increase results from positive returns in aggregate across invested assets in H1 2024 offset in part by the run-off of business in our closed ULP business and slightly negative net fund flows from Utmost International clients as shown in Figure 1 below. The majority of the AUA are backing unitlinked policies within our UWS and ULP businesses, with a small proportion of assets (approximately 5%) backing pension and savings products within the Utmost Corporate Solutions ("UCS") business and non-linked business within UIP.

The majority of the UWS AUA is held in respect of UKbased clients and Italian clients. The remainder of the UWS AUA is held in respect of clients based in our remaining continental European markets and our international markets. As we continue to focus on the organic growth of the business, the expectation is for a growing proportion of the UWS AUA to be held in respect of clients outside our two core markets as we continue to invest in new product development for these regions, as well as entering new markets.

Our UWS platform offers clients and advisers access to a full range of asset classes, investment managers and investment solutions, enabling them to tailor their investments to meet their risk and return appetites. Clients or their advisers can select from a broad selection of funds on our Open Architecture range, or from a more selective Guided Architecture range, whose constituent funds are selected by Utmost Portfolio Management, which was acquired in 2019 as part of the acquisition of Utmost Worldwide ("UW").

The performance of the ULP fund range was strong as the performance demonstrated positive investment outcomes for clients, with 96.6% of AUA ahead of benchmark over one year. ULP consistently monitors asset performance, including that of the unit-linked funds, particularly in relation to the Managed Funds operated by J.P. Morgan Asset Management ("JPMAM"), which form the majority of the unit-linked AUA.

FIGURE 1: AUA ANALYSIS SHOWING UWS NET FLOWS (IN £BN)

£BN	Opening AUA	Inflows	Outflows	Net Flows	Market	Closing AUA
H1 2023	51.9	1.6	(1.9)	(0.3)	0.8	52.4
FY 2023	51.9	3.6	(4.2)	(0.6)	3.3	54.6
H1 2024	54.6	1.5	(2.2)	(0.7)	2.7	56.6

NEW BUSINESS ANNUAL PREMIUM EQUIVALENT

APE was £140m in H1 2024 compared to APE of £154m in H1 2023 and £349m for FY 2023. H1 2024 APE has reduced by circa 9% compared to H1 2023. Our sales and marketing teams did an excellent job working closely with our distribution partners to generate strong new business flows in H1 2024 despite the continuing challenges of operating in a difficult environment influenced by political uncertainty and ongoing global conflicts.

UWS APE was £139m in H1 2024 compared to £153m in H1 2023. UCS APE was £1m in H1 2024, consistent with H1 2023.

VALUE OF NEW BUSINESS

VNB is a measure of the profitability of new business written after allowing for the cost of administering it. VNB is calculated on an economic basis, consistent with the Solvency II balance sheet and adjusted to include value

that would otherwise be excluded by the application of contract boundaries. In H1 2024, VNB was £25m compared to H1 2023 when VNB was £21m. The increase in VNB results from an improvement in VNB margin (VNB divided by APE) which has more than offset the decrease in the quantum of new business written as demonstrated by the reduction in APE. VNB margin was 17.7% in H1 2024 compared to 13.6% in H1 2023 and 15.9% for FY 2023.

The solutions provided by UWS and UCS tailor to the bespoke and often complex requirements of our client base which extend well beyond simple purely online propositions. An increasingly complex pensions, savings and taxation landscape means our clients demand tailored solutions and advice. As such, while technology-driven solutions offer opportunities to ease client interactions and deliver operational and administrative efficiency, a purely technology-driven solution cannot meet all our clients' financial needs.

FIGURE 2: KEY PERFORMANCE INDICATORS

	H1 2024 £M	H1 2023 £M	FY 2023 £ M
AUA	64,724	60,629	62,834
APE	140	154	349
VNB	25	21	55
Operating Profit	104	118	212
Net SII EV	1,768	1,705	1,686
CLIENT RETENTION ULP ¹	92%	92%	93%
UWS	92%	93%	92%
UCS ²	86%	80%	86%
OTHER FINANCIAL HIGHLIGHTS			
IFRS profit before tax	34	44	61
Expenses	105	110	218

^{1.} Individual business only excluding Group Additional Voluntary Contribution ("AVC") business.

^{2.} UCS persistency is calculated based on policy count across the Utmost PanEurope dac ("UPE") and UW entities, excluding the Retirement and Savings business.

SOLVENCY II ECONOMIC VALUE

SII EV is the Group's preferred measure of the economic value of the business.

- > For the operating life companies, SII EV is largely derived from components of the Solvency II balance sheet and the calculation methodology results in an outcome which is broadly equivalent to an old style "market consistent embedded value" before allowance for the cost of nonhedgeable risks
- > For all other entities, the SII EV is the IFRS net asset value.

The Group SII EV (net of debt) increased from £1,686m at 31 December 2023 to £1,768m at 30 June 2024. The most significant influences on this increase in net SII EV were:

- 1. VNB of £25m;
- 2. underlying operational and market impacts of £74m;
- 3. the payment of £17m of coupons on the Group's Tier 2 and Restricted Tier 1 ("RT1") notes.

No dividends were paid by Utmost Group plc during H1 2024 pending the funding required for the expected acquisition of the Lombard International business which is referred to in more detail below.

The underlying operational impacts of £74m are a strong result reflecting the improved performance of equity and bond markets, increases in risk free rates and the unwind of the discount rates used to value existing business.

OPERATING PROFIT

The Group's Operating Profit for H1 2024 is £104m, compared to £118m for H1 2023 and £212m for FY 2023. The modest reduction in Operating Profit compared to H1 2023 is primarily driven by a £3.4m reduction in Operating Profit in the UK business and an £8.9m reduction in Operating Profit in Utmost Wealth Solutions offset to a limited extent by a £1.4m improvement in the Group Head Office ("GHO") result. The reduction in the Utmost Wealth Solutions Operating Profit is driven by foreign exchange gains that arose on an IFRS basis in H1 2023 that have not reoccurred in H1 2024.

CLIENT RETENTION

The Group uses client retention as a non-financial KPI as a measure of client experience. We have elected to report this for each business (UWS, UCS, ULP) separately given the different dynamics of each business.

UWS' client retention was an annualised rate of 92% in H1 2024, just 1% lower than in H1 2023. High retention rates are driven by a strong proposition and good client service as well as the inherent product features, where some benefits may be lost, or tax payments crystallised upon early surrender.

UCS' annualised retention rate was 86% in H1 2024, unchanged from the full year rate in 2023 and improved on the rate for H1 2023. Pricing on UCS business has continued to increase in H1 2024, a factor in the Group's insurance revenue increasing from £127.2m in H1 2023 to £139.5m in H1 2024.

ULP retained the vast majority of individual clients with a retention rate of 92%, in line with our long-term assumptions in H1 2024. Overall, the UK business continues to maintain a high retention rate, helped by the launch of a Flexible Drawdown proposition.

IFRS PROFIT BEFORE TAX ("IFRS PBT")

The Group's IFRS PBT for H1 2024 was a profit of £34.3m, compared to a profit of £43.6m in H1 2023 and a profit of £60.7m for FY 2023, as reported in the financial statements. IFRS PBT includes one-off items such as acquisition and integration expenses and gains arising on bargain purchase when an acquisition completes as well as the amortisation of acquired value of in force business ("AVIF") over time. The H1 2024 IFRS PBT reflects the amortisation of £55.0m of AVIF compared to £63.9m in H1 2023 and £123.0m in FY 2023. The amortisation schedule in relation to AVIF tends to be front end loaded so that, in the absence of further acquisitions, the charge in relation to AVIF amortisation is expected to continue to reduce period on period, bringing the IFRS PBT closer to Operating Profit all other things being equal. There was no gain arising on bargain purchase in H1 2024 or in FY 2023.

Other than excluding the impact of amortisation of AVIF and depreciation, there was only one "one-off" item excluded from the calculation of Operating Profit in H1 2024. A large long-term commercial insurance policy, written by UW prior to its acquisition by Utmost Group, was surrendered on agreed terms in H1 2024. The terms of the surrender were such that the impact on SII EV was broadly neutral, however the surrender resulted in a £4.0m one-off loss on an IFRS basis.

Due to the impact of one-offs in the calculation of IFRS PBT, the directors consider Operating Profit to be the key performance indicator of the Group's profitability for internal purposes, and review IFRS PBT as a further financial metric of profitability.

IFRS EQUITY

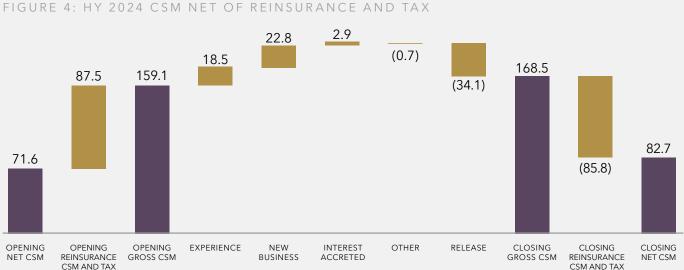

The IFRS equity of the Group increased to £1,108m at 30 June 2024 from £1,090m at 31 December 2023. These figures are both net of the Company's Tier 2 notes but are not net of the RT1 notes as the latter are treated as equity for IFRS purposes. IFRS equity is also calculated net of the Contractual Service Margin ("CSM") on Insurance business under IFRS 17.

The £18m increase in IFRS equity during H1 2024 primarily reflects the IFRS profits after tax of £29.7m for the period offset by the £6.9m coupon paid on the RT1 notes net of tax relief and foreign currency translation losses of £5.4m.

The Group's Net (of reinsurance and tax) CSM increased to £82.7m at 30 June 2024 from £71.6m at 31 December 2023.

An analysis of the change in Net CSM over the year is shown in Figure 4 below.

The Net CSM increased over the period by £11.1m. This is primarily due to positive experience and new business. Reinsurance on our Gross position remains an important part of our strategy, particularly on our UCS segment.

Fitch Ratings ("Fitch") use "Adjusted Shareholders' Equity" for the purpose of calculating the Fitch financial leverage ratio. The adjustments add back both the Group's Net CSM and the Fund for Future Appropriations ("FFA") in the ULP business as shown in Figure 5 below.

FIGURE 5: ADJUSTED SHAREHOLDERS EQUITY (IN £M)

	H1 2024	H1 2023	FY 2023
Reported IFRS Equity	1,108	1,176	1,090
Group Net CSM	83	68	72
ULP FFA	69	60	63
Adjusted Shareholders' Equity	1,260	1,304	1,225

EXPENSES

On an actual basis, as included in the consolidated financial statements, operating expenses were £105.4m in H1 2024 compared to £110.0m in H1 2023 as shown in Figure 6 below. This reflects the reduction in development costs following completion of the Quilter International separation and integration process in H2 2023.

FIGURE 6: EXPENSES (IN £M)

	H1 2024	H1 2023	FY 2023
Insurance acquisition cash flows amortisation	4.4	5.5	8.9
Other operating expenses	88.6	89.6	170.3
Development expenses	10.1	11.5	24.0
Depreciation/ amortisation	2.3	3.4	5.9
TOTAL	105.4	110.0	209.1

OPERATING COMPANY LIQUIDITY

Utmost Group's liquidity management processes and policies are designed to ensure that both policyholder liabilities and non-policyholder liabilities can be paid on a timely basis.

Due to the nature of the unit-linked product set, policyholder-related liquidity requirements are relatively

The main liquidity requirements in our operating companies relate to expenses and policyholder claims on non-linked business. Utmost International does not have any material requirements in respect of collateral.

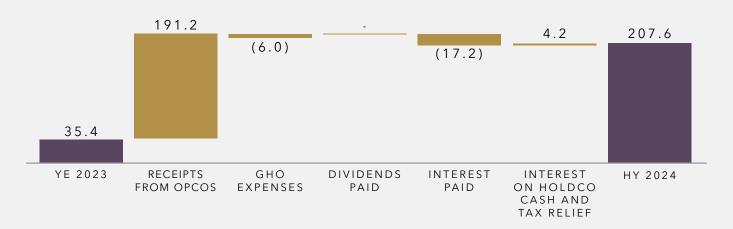

The Utmost Group requires each of its operating companies to assess liquidity on a 3, 6 and 12-month basis. All cash inflows and outflows in each period are assessed under a central and stressed scenario. The stress considers a 10% fall in inflows, 10% increase in outflows and a 5% loss on non-cash assets. Hard and soft limits are set under the central and stressed scenarios to ensure the Group remains liquid at all times.

HOLDING COMPANY CASH

Cash is held at the holding company level to cover GHO costs and one year's interest costs on the Group's debt capital instruments. Excess cash not required for these purposes is available to be reinvested in the business, to fund future acquisitions, or to be paid as a dividend to the Group's immediate shareholder, Utmost Holdings Guernsey Limited ("UHGL").

Cash held at holding companies at 30 June 2024 was £207.6m compared to £35.4m at 31 December 2023. An analysis of the change in cash held at holding companies over the period is shown in Figure 7 below. £191.2m of dividends, loan repayments and interest were received from operating companies during the period. Whilst some of the cash received at holding companies was used to meet GHO expenses and the coupon payments on the Tier 2 and RT1 loan notes during the first half of the year, the bulk has been retained to part finance the Lombard International acquisition which is expected to complete in Q4 2024.

FIGURE 7: H1 2024 HOLDING COMPANY CASH DEVELOPMENT (IN £M)

CAPITAL STRENGTH AND SOLVENCY POSITION

The Group applies a disciplined approach to capital management. The Group aims to maintain a strong capital position and has prudent capital policies in place. Each of its life companies is subject to local solvency regulation.

The UK business and the Group are subject to the requirements of PRA Solvency UK. The Irish life companies are subject to the requirements of EIOPA Solvency II. The solvency regime introduced by the Isle of Man on 1 July 2018 is broadly similar to the Solvency II regime and, in addition to complying with the Isle of Man solvency regime, the Isle of Man business also calculates its SCR coverage in accordance with PRA Solvency UK requirements. UW has agreed with the Guernsey Financial Services Commission ("GFSC") that its capital position should be calculated in accordance with the full PRA Solvency UK requirements.

The nature of the business written by the Group is such that it is appropriate for all its life company subsidiaries to determine their solvency balance sheets using the "Standard Formula" approach. The Group does not utilise an internal model and does not make use of any transitional measures on technical provisions ("TMTP").

The Group's life companies seek to maintain a strong solvency position and have each adopted capital policies to ensure that this is the case.

The capital policies for the various life companies within the Group are summarised in Figure 8 together with their actual SCR Coverage Ratios as at 30 June 2024. In each case the capital policy specifies a minimum level of Solvency Coverage Ratio which the entity seeks to exceed at all times and a higher level of Solvency Coverage Ratio which the entity must exceed immediately after payment of a dividend. The Solvency Coverage Ratio of each entity at 30 June 2024 was in excess of this second higher threshold, as shown in Figure 8.

FIGURE 8: ENTITY SOLVENCY AND CAPITAL POLICIES

ENTITY	SCR COVERAGE RATIO 30 JUNE 2024	AT ALL TIMES	IMMEDIATELY POST DIVIDEND
Utmost International Isle of Man Limited	202%	125%	150%
Utmost PanEurope dac (inc. WTA¹)	155%	135%	150%
Utmost PanEurope dac (exc. WTA¹)	123%	100%	110%
Utmost Worldwide Limited	167%	135%	150%
Utmost Life and Pensions Limited	182%	135%	150%
Utmost Group plc	209%	135%	150%

^{1.} Withholding Tax Asset as detailed further in note 16 of the consolidated financial statements in the Utmost Group plc ("UGP") 2023 Annual Report.

HM Treasury implemented changes to the calculation of the risk margin for United Kingdom incorporated insurers in December 2023. This resulted in a material reduction in the risk margin, and a corresponding increase in Own Funds in Utmost Life and Pensions Limited, Utmost Worldwide Limited and Utmost Group plc as at 31 December 2023. Subsequently, the Isle of Man Financial Services Authority introduced changes to the calculation of the risk margin under the Isle of Man solvency regime with effect from 30 June 2024. These changes are reflected in the SCR Coverage Ratio of Utmost International Isle of Man Limited ("UIIOM") at 30 June 2024 in Figure 8 on page 20.

EIOPA is also consulting on changes to the calculation of the risk margin for EU incorporated insurers under Solvency II. Any changes resulting from this consultation, which would impact Utmost PanEurope dac, are not expected to be implemented until 2026 at the earliest.

UW and UIIOM are also required to ensure that they meet the regulatory capital standards in respect of each of their branches. In the case of most of these branches, the branch solvency reporting applies to the relevant branch business only. Until 1 July 2024, when the Hong Kong Insurance Authority ("HKIA") introduce a new risk based capital framework, UW and UIIOM had to satisfy the old Hong Kong capital standards on a whole company basis. At 30 June 2024 the Solvency Coverage Ratios of UW and UIIOM on the old Hong Kong basis were 636% and 25,946% respectively. From 1 July 2024, the new risk based capital framework implemented by the HKIA, which is similar in nature to the capital regimes in the other jurisdictions in which the Group operates, applies only to the relevant Hong Kong branch business.

UGP and its subsidiaries are subject to full Group supervision by the PRA. OCM Utmost Holdings Ltd ("OUHL"), the ultimate parent company of the Group is currently subject to group regulation by the PRA on an "Other Methods" basis in accordance with a PRA Direction issued in September 2020 and amended in August 2023. In addition, in the absence of an agreement between the UK and the EU on equivalence, the Central Bank of Ireland undertake group supervision of Utmost Topco Limited ("UTL") and its subsidiaries on an "Other Methods" basis. UTL is the immediate subsidiary of OUHL. The Group SCR Coverage Ratio is calculated as Group Own Funds as a percentage of Group SCR (on a standard formula basis).

Utmost Group's approach to managing capital at Group level mirrors the approach at life company level, i.e. to maintain a Group SCR Coverage Ratio of at least 135% at all times, and a Group SCR Coverage Ratio of at least 150% immediately after payment of a dividend.

Throughout H1 2024, the Group maintained its strong capital position, with a Group SCR Coverage Ratio of 209% at 30 June 2024 and Group Own Funds of £2,193m. The increase in Group Own Funds of £83m over H1 2024 reflects the operational cash generation during the period offset by GHO expenses and the coupon payments on the Tier 2 and RT1 loan notes. The mix of our fee base, between fixed and AMC-based charges, and the equity symmetric adjustment contributed to the stability in the Solvency Coverage Ratio in H1 2024.

FIGURE 9: GROUP SOLVENCY II CAPITAL

	30 JUNE 2024 £m	31 DECEMBER 2023 £m	30 JUNE 2023 £m
Own Funds	2,193	2,110	1,840
Solvency Capital Requirement	1,050	1,016	994
Solvency Coverage Ratio	209%	208%	185%

BORROWINGS

The Group has two debt instruments in place: £400m 4.0% Tier 2 loan notes issued in September 2021 and £300m 6.125% RT1 loan notes issued in January 2022. Both instruments are listed on the Global Exchange Market ("GEM") in Ireland. Interest of £8.0m and £9.2m was paid as scheduled on the Tier 2 loan notes and the RT1 loan notes respectively on 15 June 2024.

The Group maintains a prudent capital structure and aims to target a leverage ratio of between 20%-30% of SII EV, gross of debt. As at 30 June 2024, the UGP leverage ratio on this basis was approximately 28.4% and the Fitch financial leverage ratio was 24.1%.

CREDIT RATING

Following completion of the 2023 Fitch annual ratings review, all of the Group's ratings were adjusted from Stable Outlook to Positive Outlook. In June 2024, Fitch Ratings upgraded the Insurer Financial Strength ratings of UIIOM, UW and UPE to 'A+' and Utmost Group plc's Issuer Default Rating to 'A', in each case the Outlook is Stable. Fitch noted that "the upgrades reflect our view that Utmost Group's company profile has improved, following the completion of the Quilter International integration, which we believe has improved the group's business risk profile by reducing integration and execution risks. The upgrades also take into account the group's improved operating scale over the past few years, strong operating profitability and capitalisation."

As a result of the upgrade referred to above, and changes to Fitch ratings methodology in relation to RT1 instruments, Utmost Group plc's Tier 2 and RT1 loan notes are now both rated 'BBB'.

Following the announcement of the proposed acquisition of Lombard International, Fitch affirmed Utmost Group's existing ratings.

DIVIDENDS

UGP has not paid any dividends to UHGL in H1 2024 (H1 2023: £100m).

POST BALANCE SHEET EVENT - PROPOSED ACQUISITION OF LOMBARD INTERNATIONAL

On 4 July 2023, Utmost Group announced that it has entered into an agreement to acquire Lombard International Assurance Holdings S.a.r.l., subject to regulatory and other approvals.

The transaction will be financed by:

- i. a new £200m senior bank facility which has been put in place at Utmost Group plc level; and
- ii. existing excess capital held in Utmost Group holding companies.

The senior bank facility, which will be drawn down at completion of the acquisition and will count as a deduction from Group Own Funds, will be repayable at £50m a year commencing on 15 December 2025.

Had the acquisition completed on 31 December 2023 then Utmost Group plc's:

- i. Group AUA would have increased by approximately
- ii. Group Own Funds would have increased to £2,550m, Group SCR would have increased to £1,470m and Group SCR Coverage would have decreased to 173%;
- iii. Gross SII EV would have increased to £3,150m and Net SII EV would have increased to £2,250m; and
- iv. Group leverage would have been unchanged on both a SII EV basis and a Fitch financial leverage ratio basis.

The acquisition is expected to complete in the fourth quarter of 2024.

SUMMARY

The Group has delivered resilient results in H1 2024 with Operating Profit and underlying growth in SII EV broadly consistent with, or ahead of, that delivered in FY 2023 on a proportionate basis. Whilst new APE is down slightly on FY 2023 on a proportionate basis, VNB margin has increased again as the group continues to focus on value over volume.

The Group's balance sheet remains strong and resilient, with the strength of the Group evidenced through the consistency of its financial strength and operating performance over recent years. This strong financial position enables the Group to provide a high level of security to its clients and to continue to invest to improve our systems and service. In addition, in H2 2024, it will enable us to finance the acquisition of Lombard International - a transaction which will strengthen Utmost International's position in key markets throughout Europe - without requiring additional equity investment from shareholders.

IAN MAIDENS

GROUP CHIEF FINANCIAL OFFICER

The Group's balance sheet remains strong and resilient, with the strength of the Group evidenced through the consistency of its financial strength and operating performance over recent years.

> IAN MAIDENS GROUP CHIEF FINANCIAL OFFICER

REPORT OF THE DIRECTORS

The Directors present their condensed consolidated interim financial statements for Utmost Group Plc, (the "Company") for the period ended 30 June 2024. The Company is a public limited company incorporated in England and Wales (registered no. 12268786) under the Companies Act 2006. The Company was incorporated on 17 October 2019.

Comparative information has been presented for the period ended 30 June 2023 and the year ended 31 December 2023.

The Directors of the Company confirm that to the best of their knowledge:

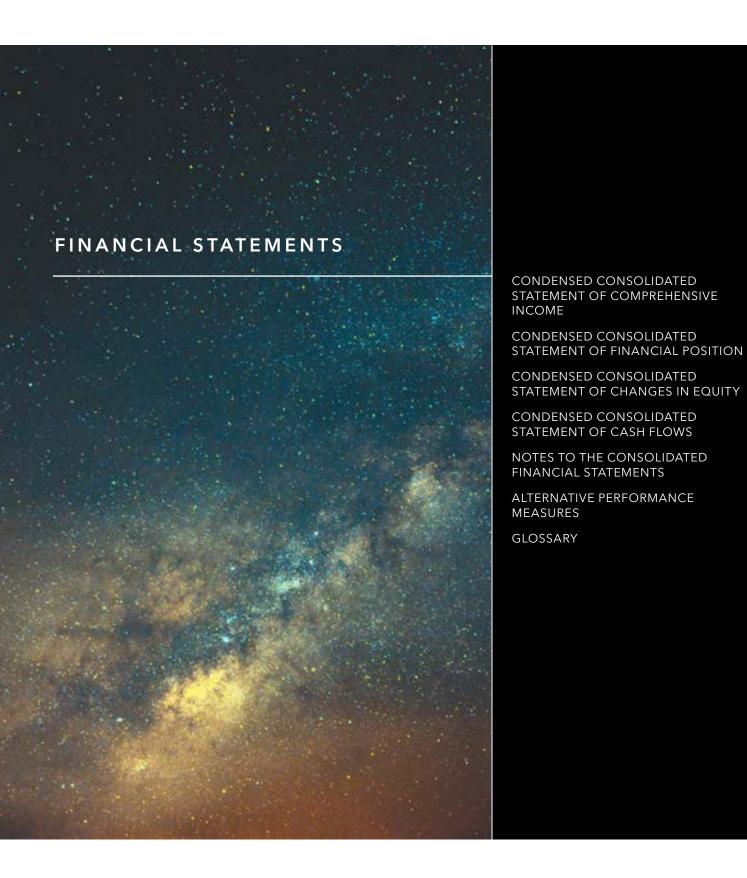

- the condensed consolidated interim financial statements for the half year ended 30 June 2024, which have been prepared in accordance with IAS 34 Interim Financial Reporting as adopted by the UK, give a fair view of the assets, liabilities, financial position and results of Utmost Group plc and its consolidated subsidiaries taken as whole:
- of affairs of Utmost Group plc and its consolidated subsidiaries as at 30 June 2024 and for the financial half year to which the Interim Report relates. This includes a description of the important events that occurred during the first half of the year and refers to the principal risks and uncertainties facing Utmost Group plc and its consolidated subsidiaries for the remaining six months of the year; and
- the Interim Report includes a fair view of the information required on material transactions with related parties and any material changes in related party transactions described in the last Annual Report.

The financial statements were authorised for issue by the Board of Directors on 10 September 2024.

IAN MAIDENS

GROUP CHIEF FINANCIAL OFFICER

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL INFORMATION

The principal activity of Utmost Group plc (the "Company") is investment holding, and of its subsidiaries (together, the "Group") is the writing of long-term assurance business through the Utmost Wealth Solutions brand, the majority of which are classified as investment contracts because of the absence of significant insurance risk. These contracts are primarily written into the UK, Ireland, Italy, Switzerland and other European countries. The Group also writes employee benefits insurance business through the Utmost Corporate Solutions brand. Through Utmost Life and Pensions Limited ("ULP"), the Group operates both a closed UK life and pensions business and a nascent BPA business. The Company was incorporated as a company limited by shares in England and Wales and converted to a plc on 19 July 2021. The address of the Company's registered office is 5th Floor Saddlers House, 44 Gutter Lane, London, EC2V 6BR.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The condensed consolidated interim financial statements ("the interim financial statements") for the half year ended 30 June 2024 comprise the interim financial statements of Utmost Group plc and its subsidiaries and were authorised by the Board of directors for issue on 10 September 2024. The interim financial statements are unaudited.

The interim financial statements do not include all the information and disclosures required in the 2023 consolidated financial statements, and should be read in conjunction with the Group's 2023 Annual Report and Accounts, which have been prepared in accordance with UK-adopted international accounting standards.

The interim financial statements are presented in thousand pounds sterling (£) rounded except where otherwise stated. Assets and liabilities are offset in the condensed statement of consolidated financial position only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis. Income and expenses are not offset in the condensed consolidated income statement unless required or permitted by an International Financial Reporting Standard ("IFRS") or interpretation, as specifically disclosed in the accounting policies of the Group.

These interim financial statements do not comprise statutory accounts within the meaning of section 434 of the Companies Act 2006. Statutory accounts for the year ended 31 December 2023 were delivered to the Registrar of Companies. The report of the auditor on those accounts was unqualified, did not contain an emphasis of matter paragraph and did not contain any statement under section 498 of the Companies Act 2006.

There is no seasonality or cyclicality in Utmost's business operations.

2.2 Restatement of comparative information

The comparative information for the period ended 30 June 2023 has been restated to reclassify £7,262k of expenses from 'Other operating expenses' to 'Investment return' and £5,777k of income from 'Investment return' to 'Other income'. There is no impact to profit or equity from these reclassifications.

2.3 Basis of consolidation

The consolidated financial statements include the financial statements of the Company and each of its subsidiaries. Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated primary statements.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

2.4 Going concern

At the time of preparing and approving the financial statements, the directors have a reasonable expectation that the Company and Group have sufficient resources to continue in operational existence for the foreseeable future. The Company and Group therefore continue to adopt the going concern basis in preparing its individual and consolidated interim financial statements.

In making the going concern assessment for the foreseeable future the directors considered various assessments and stresses are applied to those positions to understand potential impacts of market downturns. These stresses do not give rise to any material uncertainties over the ability of the Company and Group to continue as a going concern. Based upon the available information, the directors consider that the Company and Group have the plans and resources to manage its business risks successfully and that it remains financially strong.

The directors are confident that the Company and Group will have sufficient funds to continue to meet its liabilities as they fall due for a period of, but not limited to, 12 months from the date of approval of the interim financial statements. Therefore, they have considered it appropriate to continue to adopt the going concern basis of accounting when preparing the interim financial statements.

2.5 Accounting policies and changes in accounting policies

The accounting policies adopted are consistent with those of the Group's 2023 Annual Report and Accounts.

3. SEGMENTAL ANALYSIS

The Group defines and presents operating segments in accordance with IFRS 8 Operating Segments which requires operating segments to be identified based on the information provided to the Chief Operating Decision Maker ("CDM"). The profit and loss information provided to the CDM and as presented in this note is on a different basis to that presented in the consolidated Statement of Comprehensive Income.

IFRS 8 defines an operating segment as a component of an

- > that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- whose operating results are regularly reviewed by the entity's CDM to make decisions about resources to be allocated to the segment and assess its performance;
- > for which discrete financial information is available.

Based on the above criteria the operating segments of the Group are determined to be:

Utmost Wealth Solutions ("UWS")

A provider of wealth solutions through the sale of unitlinked life assurance products.

Utmost Corporate Solutions ("UCS")

A provider of employee benefits business including life cover, income protection and critical illness cover to corporate clients to protect their employees. UCS specialises in the provision of benefits to multinational corporations with employees in multiple jurisdictions.

Utmost Life and Pensions ("ULP")

A closed UK life and pensions business and a nascent BPA business.

Other Group activities

Centrally held assets and group head office expenses are included in 'Other Group activities'. The elimination of inter-segment transactions and consolidation adjustments are also included within this segment.

The performance of the segments is based upon the non-GAAP measure operating profit. The Group's internal definition of operating profit is considered by management to provide a better view of the Group's underlying quality of earnings compared to the IFRS profit before interest and tax ("PBIT") figure and the definition of operating profit is provided in the Alternative Performance Measures ("APMs") section.

3. SEGMENTAL ANALYSIS (CONTINUED)

A reconciliation of the segmental operating profit to the Group profit before tax is provided below:

Cash and cash equivalents	2,783,859	2,865,208
	61,625,676	59,642,254

Included in the analysis above are investments of £2,558,513k (FY 2023: £2,450,569k) which are level 3 assets in the Fair Value Hierarchy. The nature of these assets means there may be limited liquidity through suspensions, liquidations or by the nature of assets the underlying fund invests into.

Other investments includes structured notes and collateralised securities.

Interest in structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes; (a) restricted activities, (b) a narrow and well defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The Group considers its investments in collective investment schemes to be investments in unconsolidated structured entities, which are recognised within 'Financial assets at fair value held to cover linked liabilities' on the Statement of Financial Position. These investments largely represent assets held to back policyholder linked liabilities, and as such any market movements (recognised within 'Investment return' in the Statement of Comprehensive Income) is matched by a change in investment contract liabilities in the Statement of Comprehensive Income.

The Group determines it does not have any interests in consolidated structured entities as at 30 June 2024 (2023: fnil).

9. INVESTMENT CONTRACT LIABILITIES

The following table summarises the movement in financial liabilities under investment contracts during the year:

	2024	2023
	HALF YEAR	FULL YEAR
	£′000	£′000
Balance at start of period	54,116,049	51,872,159
Deposits to investment contracts	1,277,693	2,986,609
Withdrawals from investment contracts	(2,172,710)	(4,097,689)
Fees and charges deducted including third party charges	(190,922)	(367,022)
Commissions and rebates receivable	99	2,967
Change in investment contract liabilities	3,093,181	4,075,594
Other movements	11,815	(4,181)
Foreign exchange movement	(308,666)	(352,388)
Movement in the period	1,710,490	2,243,890
CLOSING BALANCE CARRIED FORWARD	55,826,539	54,116,049

Any policy can be surrendered at any time, investment contract liabilities therefore have a minimum maturity of 0-1 years. In practice, this is unlikely to happen given that these products are long term investment contracts and more specifically, may reflect the settlement terms achieved on the disposal of assets in the terms it offers on the settlement of liabilities backed by those assets.

12. FAIR VALUE DISCLOSURES

Fair value, as defined by IFRS 13 "Fair Value Measurement", is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In accordance with IFRS 13, the Group has applied the fair value hierarchy classification to all assets and liabilities measured at fair value. This requires the Group to classify such assets and liabilities according to a hierarchy based on the significance of the inputs used to arrive at the overall fair value of these instruments:

- > Level 1: Fair value measurements derived from quoted market prices (unadjusted) in active markets for identical assets or liabilities.
- > Level 2: Fair value measurements derived from inputs other than quoted prices included within level 1 that are observable for the asset of liability, either directly or indirectly.
- > Level 3: Includes valuations for assets that are not based on observable market data (unobservable inputs) or where only stale prices are available

Investments are transferred from level 1 to level 2 and vice versa when dealing/pricing frequencies change. Transfers into level 3 occur when an equity or collective investment scheme is suspended or enters liquidation, as notified by its fund administrator or investment manager. Transfers out of level 3 occur when such suspension is lifted, as notified by the fund administrator or investment manager.

A proportion of the assets are valued at a fair value derived using unobservable level 3 inputs. The majority of these are valued using valuations obtained from external parties which are reviewed internally to ensure they are appropriate. The Group has limited access to the key assumptions and data underlying these valuations and most of these investments are in hedge funds, collective investment schemes, suspended funds or funds in liquidation; therefore no sensitivity analysis has been presented. The level 3 assets shown below are primarily unit linked assets backing policyholder liabilities, and as such there is minimal exposure to the Group of changes in the valuation of these assets.

30 JUNE 2024

ASSETS	TOTAL £'000	LEVEL 1 £'000	LEVEL 2 £'000	LEVEL 3 £'000
> Financial assets held at fair value to cover linked liabilities	61,625,676	36,425,170	22,641,993	2,558,513
Debt securities - fair value through profit and loss	1,083,496	700,147	375,610	7,739
Debt securities - fair value through other comprehensive income	121,751	121,751	-	-
Other investments at fair value	240,452	85,739	149,677	5,036
› Investment property	5,700	-	-	5,700
	63,077,075	37,332,807	23,167,280	2,576,988
Total assets not at fair value	2,708,686			
TOTAL ASSETS PER STATEMENT OF FINANCIAL POSITION	65,785,761			
Investment contract liabilities	55,826,539	-	53,268,026	2,558,513

12. FAIR VALUE DISCLOSURES (CONTINUED)

31 DECEMBER 2023

	TOTAL	LEVEL 1	LEVEL 2	LEVEL 3
ASSETS	£′000	£′000	£′000	£′000
> Financial assets held at fair value to cover linked liabilities	59,642,254	44,028,903	13,162,782	2,450,569
Debt securities - fair value through profit and loss	1,158,637	756,207	402,430	-
> Debt securities - fair value through other comprehensive income	126,198	126,198	-	-
> Other investments at fair value	314,920	169,266	140,253	5,401
› Investment property	5,700	-	-	5,700
	61,247,709	45,080,574	13,705,465	2,461,670
Total assets not at fair value	2,668,840			
TOTAL ASSETS PER STATEMENT OF FINANCIAL POSITION	63,916,549			
Investment contract liabilities	54,116,049	-	51,665,480	2,450,569

A reconciliation of the opening to closing balances in the level 3 fair value hierarchy is shown in the table below:

FINANCIAL ASSETS HELD AT FAIR VALUE THROUGH PROFIT AND LOSS £'000 **BALANCE AT 1 JANUARY 2023** 2,473,432 Additions 66,861 Transfers into level 3 268,939 Transfers out of level 3 (285,746)Total gains 179,360 Disposals (236,026)Foreign exchange movements (5,150)BALANCE AT 31 DECEMBER 2023 2,461,670 Additions Transfers into level 3 63,362 Transfers out of level 3 (54,246)Total gains 157,287 Disposals (41,145)Foreign exchange movements (9,940)**BALANCE AT 30 JUNE 2024** 2,576,988

Transfers between levels of the fair value hierarchy are recognised at the end of the reporting period during which the change occurred. The Group aims to minimise undue exposure to level 3 assets, and regularly reviews the composition of the portfolio including level 3 assets through the Investment Committee. Restrictions and criteria are in place in Ireland, the UK and Guernsey to limit exposure to level 3 assets, and the Isle of Man has a general policy of no further investment into level 3 assets.

13. RELATED PARTY TRANSACTIONS

TRANSACTIONS WITH KEY MANAGEMENT PERSONNEL

The following disclosures are in accordance with the provisions of IAS 24 Related Party Disclosures, in respect of the compensation of Key Management Personnel. Under IAS 24, Key Management Personnel are defined as comprising executive and non-executive directors together with senior executive officers.

	DIRECTORS'		
	SALARIES	POST	
	& SHORT	EMPLOYMENT	
	TERM BENEFITS	BENEFITS	TOTAL
	£′000	£′000	£′000
HALF YEAR 2024	2,116	121	2,237
HALF YEAR 2023	2,001	116	2,117
FULL YEAR 2023	2 742	231	2 973

Transactions with related parties

The Group has holdings in the European Senior Loan Fund of a related party Oaktree. The ultimate parent company which maintains a majority controlling interest in the Group is recognised by the directors as OCM Utmost Holdings Ltd, a Cayman Island incorporated entity. OCM Utmost Holdings Ltd, is an investment vehicle owned by funds which are managed and advised by Oaktree Capital Management L.P., a subsidiary of the ultimate controlling party Oaktree Capital Holdings, LLC.

14. EVENTS AFTER THE PERIOD-END DATE

On 4 July 2024 the Group announced the proposed acquisition of Lombard International Assurance Holdings Sarl, a highly complementary business to the existing Utmost International businesses. The acquisition continues the expansion of the Utmost International business and further strengthens its global footprint. The total consideration will be financed through a £200m bank loan, with the remainder covered by existing cash reserves.

ALTERNATIVE PERFORMANCE MEASURES

Within the annual report various alternative performance measures ("APMs") are used in order to analyse the performance of the Group over the reporting period. APMs represent performance indicators / metrics which are not directly shown in the financial statements prepared in accordance with the applicable financial reporting framework (UK-adopted International Accounting Standards for the Group for the period ended 30 June 2024), but are derived from the financial statements usually by including or excluding certain items. APMs are considered to provide a more relevant and informative measure for stakeholders in assessing the performance of the Group. The APMs presented in these financial statements may change over time as management deem necessary in order to appropriately monitor and report the Group's performance.

The following section includes a definition of each APM and additional information to enable the stakeholders to understand how the APM differs from, and where possible reconciles to, information presented in the Financial Statements.

ASSETS UNDER ADMINISTRATION ("AUA")

The Group's definition of AUA includes assets administered by the Group on behalf of clients. AUA provides a measure of the scale of the Group, and a sense of the Group's potential earnings capability which are partly calculated as a percentage of the value of assets under administration. A reconciliation of the Group's AUA metric to the consolidated IFRS Statement of Financial Position is as follows:

	HY 2024 £m	FY 2023 £m
AUA	64,724	62,834
Financial assets at fair value held to cover linked liabilities	61,626	59,642
Other investments including deposits, cash and cash equivalents and policyholder loans	2,203	2,247
Reinsurance contract assets	895	945
Total (as per Statement of Financial Position)	64,724	62,834

The Group's AUA at 30 June 2024 has risen from the 31 December 2023 figure as a result of positive market movements in the period. The Group's AUA is largely attributable to customers of unit-linked products (approximately 95% of the AUA represent assets backing unit-linked liabilities) and accordingly the investment gain in the period is matched by an increase in the unit-linked liability.

OPERATING PROFIT

The Group's internal definition of operating profit is considered by management to provide a more representative view of the Group's underlying quality of earnings compared to the IFRS profit before interest and tax ("PBIT") figure. The items excluded from operating profit, but included in IFRS PBIT, are generally related to merger and acquisition ("M&A") activity and considered to be more strategic in nature than representing the underlying operating performance of the businesses. These items include the following:

Gain on bargain purchase:

A gain on bargain purchase is recognised when the fair value of the acquired assets and liabilities exceeds the consideration paid in the business combination, representing 'negative goodwill' which is credited directly to the Statement of Comprehensive Income. These gains represent one-off benefits to IFRS PBIT, and as such the Group looks to exclude these from operating profit to provide a better view of underlying performance.

Amortisation, depreciation and impairments/write-offs:

Operating profit also excludes the amortisation charge and any impairments relating to acquired value of inforce business ("AVIF"), which are not considered part of underlying operating performance, and depreciation of tangible assets.

Expenses incurred relating to M&A activity:

Certain expenses are incurred directly in relation to the acquisition activity, including inter alia due diligence fees and associated professional fees, and taxes associated with M&A activity (stamp duty, for example).

Non-recurring items:

Non-recurring items relate to items which are not expected to recur in future periods, and as such are excluded from operating profit to provide a more reflective view of quality of earnings.

ALTERNATIVE PERFORMANCE MEASURES (CONTINUED)

A reconciliation between the Group's operating profit and IFRS PBIT for half year 2024 and full year 2023 is shown below:

	HY 2024 £M	FY 2023 £M
IFRS PBIT	43	78
Amortisation of AVIF and depreciation	57	129
Non-recurring items	4	5
Group Operating Profit	104	212

NEW BUSINESS ANNUAL PREMIUM EQUIVALENT ("APE")

APE represents an industry-recognised sales metric used to allow comparisons of new business written over the year. Management monitor APE on a monthly basis across each business to align with the strategic pillar of growing the business organically in addition to by acquisition. The Group calculates APE in line with industry norm, which is as the value of regular premiums written in the year plus 10% of any new single premiums written. Whilst this metric is not directly reconcilable to the IFRS financial statements (as the split between single premiums and regular premiums is not shown) the majority of the Group's single premiums are written as investment contracts through the Utmost Wealth Solutions brand, and most of the regular premiums are written as insurance contracts through the Utmost Corporate Solutions brand.

VALUE OF NEW BUSINESS ("VNB")

Whereas APE provides a view of how much new business is written in the year, VNB provides a view of the profitability of new business to the Group. Management monitor the VNB margin (defined as VNB expressed as a percentage of APE) on a monthly basis across each business. VNB is calculated as the present value of future income streams arising from new business written in the year, after deducting costs associated with writing this new business. VNB is not directly reconcilable to any of the IFRS metrics presented in the financial statements, given it provides a view of the profitability of new business from an actuarial view as opposed to an accounting view.

SOLVENCY II ECONOMIC VALUE ("SII EV")

Whilst AUA provides a view of the scale of the business, SII EV provides an overall view of the underlying value of the Group attributable to shareholders. SII EV is considered by management to better reflect the commercial value of the Group than IFRS equity, as the latter excludes components of value such as the present value of future earnings arising from in-force business. SII EV represents a metric which better aligns with the traditional Embedded Value reporting which preceded the Solvency II regulations which became effective on 1 January 2016.

The Group's SII EV is calculated by adding the economic value of its insurance companies and its non-insurance companies. The Group's internal metric to calculate the value of its insurance companies is calculated as follows:

- > Solvency II Own Funds;
- > plus Risk Margin;
- > plus Value of In-force business outside Contract Boundaries;
- plus Foreseeable dividends;
- less Transitional Measures on Technical Provisions; and
- > less Intra-group balances which qualify as Tier 2 capital in the receiving entity.

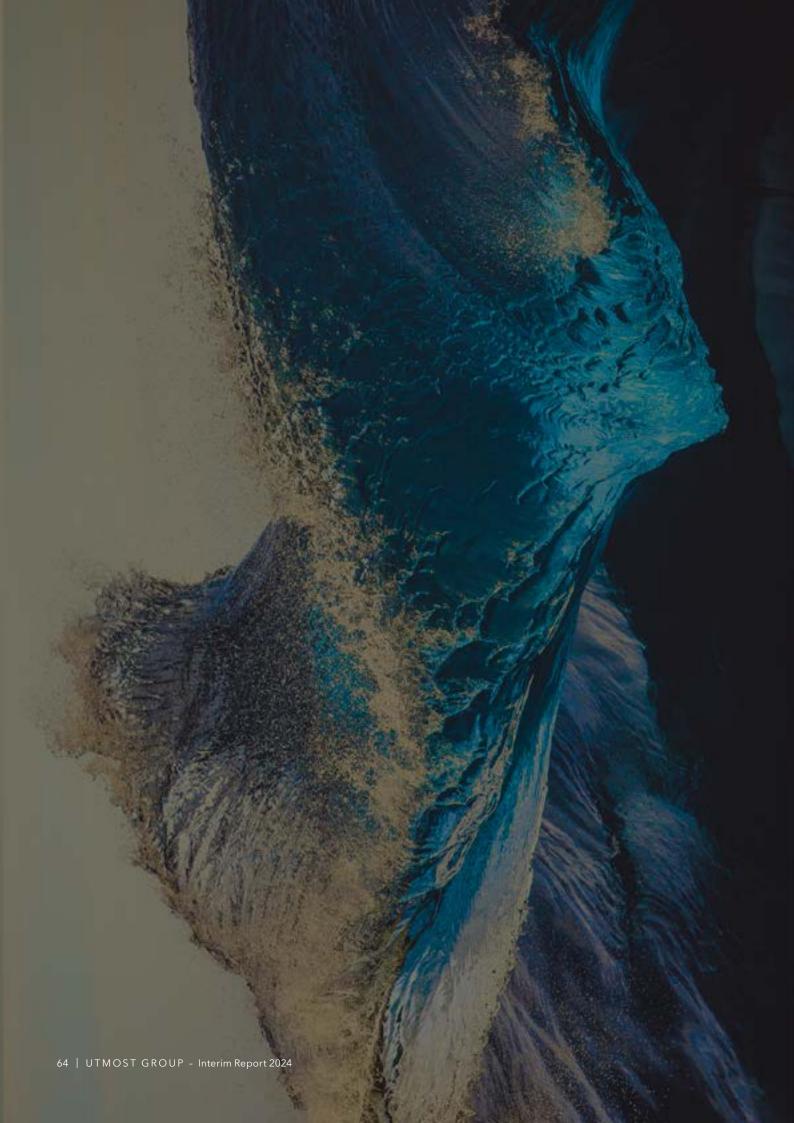

The Group calculates the value of its non-insurance companies on an IFRS net asset value basis. Solvency II Own Funds is shown net of external debt. Other components of value are considered based on circumstances, to ensure that solvency capital on a regulatory basis is adjusted to a view of economic capital.

The Group's net SII EV as at 30 June 2024 is £1,768m (31 December 2023: £1,686m).

CLIENT RETENTION

Client Retention is a measure of the clients who held an Utmost policy at the start of the year, and still held that policy at the end of the year. Client Retention is an indicator that our strategic goals, especially around good client outcomes, are being met.

The KPI is influenced by factors such as the average age and duration of the book, longevity and mortality. It is calculated as: 1 - (All Policy Exits in the Period) / (Policy Count at the Start of the Period).

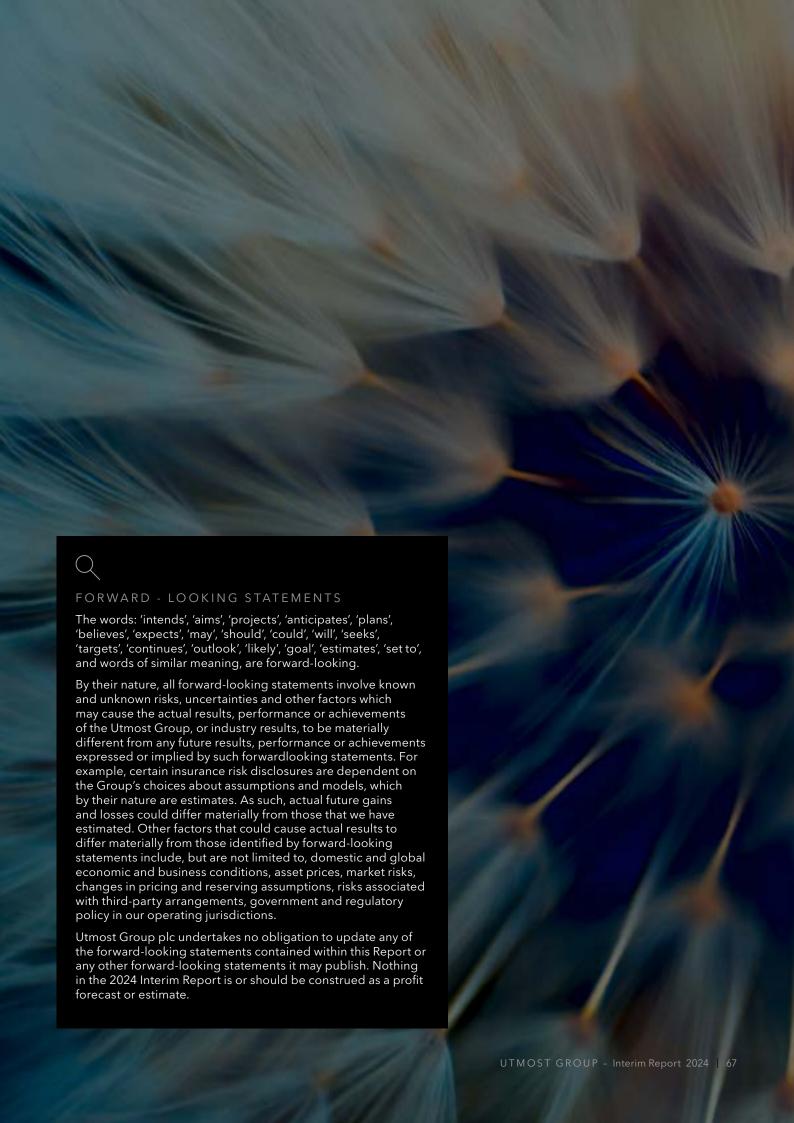

GLOSSARY

AMCs	Annual Management Charges
APE	Annual Premium Equivalent; APE = Regular Premiums + 10% * Single Premiums
APMs	Alternative Performance Measures
